

TLU

TLD

- \* Arctica's display trays are designed to fit into Arctica showcases only. To find the right size for a shelf, simply select the next larger size available as indicated on the cross section drawing. (i.e. If shelf is marked as 20.5" deep select 21" deep tray.)
- \* Trays with the back lip down (TLD) are made to fit glass shelves (GS). They prevent the tray from sliding to close to the front glass and possibly restricting the airflow of refrigerated cases.
- \* Trays with the back lip up (TLU) are made for bottom shelves (BS).
- \* For drawers use TLU-2618-BS or TLU-2609-BS only.
- \* Trays are made of aluminum and are brass anodized (stock item).
- \* Chrome anodized & 9 colours powder paint available on request.

TYPE	NOMINAL SIZE	DESCRIPTION	APPROX. SHELF DEPTH	BRASS (Stock)	CHROME/POWDER PAINT
TLD-1318-GS	13" D x 18" W	TRAY LIP DOWN	12.5"
